Washington, DC 20515

The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
1036 Longworth HOB
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro:

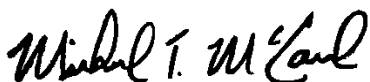

I am requesting funding for the establishment of the Brushy Creek Wastewater Treatment Plant in fiscal year 2026. The entity to receive funding for this project is the City of Bryan located at 300 South Texas Avenue, Bryan, TX, 77803, United States.

The funding would be used for the first phase in establishing the Brushy Creek Wastewater Treatment Plant for the City of Bryan, Texas to expand its wastewater facilities to support growth on the east side of Brazos County. This project is an appropriate use of taxpayer funds as it ensures the City of Bryan can continue to manage the wastewater treatment and maintain the standards of the Clean Water Act while the city continues to grow. It is essential for the City of Bryan to bring the Brushy Creek wastewater treatment plant online to keep up with the growth, trajectory, and aged infrastructure of current wastewater treatment plants. This project is crucial for East Bryan's future development, opening up new lands for development that are currently limited by utility services and allowing for improvement to wastewater treatment city-wide.

The project has a federal nexus because the funding provided is for purposed authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Michael T. McCaul
Member of Congress
